Advertising products? We keep setting the pace!

Dear customer,

Your advertising must reach the target group – therefore, place your message exactly where it works best. To achieve that, our range of valuable advertising products provides plenty of space for many different opportunities. Being highly attractive advertising mediums, our multilateral measuring tools enable truly individual communication solutions.

Combine quality and suitability – use our premium products!

A handwritten signature in black ink, which appears to read 'Hans Keller', is positioned above the printed name.

Hans Keller
managing director and sole shareholder

BMI® offers you:

- A wide range of products
- Reliable tools of tested and proven quality
- Development and manufacturing in Germany
- Tradition and innovation

Choose your individual colour!

From an order of 300 units, all products marked with this sign are available with casing colour at your choice.

1052S MADE IN EU

962

Flexible steel measuring rules made of stainless hard rolled spring band steel. Ultra modern manufacturing processes ensure sharp graduation contours.

The graduation is largely **anti abrasive and withstands chemicals, grease and oil.**

Its matt finish allows good reading. Rounded edges.

Class III according to EC standard for metric graduation.

Graduations available (upper/lower edge):
0.5 mm/1 mm, 1 mm/1 mm or 1 inch/0.5 mm

Individual graduations and prices on request.

Material: hard rolled spring band steel

Available colour: metallic blank

Order-no.:

15 cm → 962 115RD

20 cm → 962 120RD

30 cm → 962 130RD

MADE IN GERMANY

620MF

Cold-hammered special aluminium alloy. Digits and graduations deep etched and laid out black. The rule has **precisely-latching, nickel-plated steel springs**. Rounded edges. **Heat resistant!**

Length: 2 m

Material: aluminium alloy

Accuracy: class III according to EC standard

Art.-Nr.:

silver → 620MF

black → 620MFS

Other colours on request

966

Rigid steel measuring rules made of stainless, hard-rolled spring band steel. Ultra-modern manufacturing processes ensure sharp graduation contours. The graduation is largely anti-abrasive, and withstands chemicals, grease and oil. Its matt finish allows good reading. Rounded edges. EC accuracy class for metric graduation.

EC accuracy class II for metric pitch.

Partition image: (top / bottom) mm / mm

Other pitches on request.

Material: Spring steel, cross-section 30 x 1.0 mm

Available color: metallic blank

BMI[®]

Quicky Pro

For more flexibility in building.

product design award

QuickyPro

The BMI-Quicky, sold by hundreds of thousands, has been further developed and is now called QUICKY PRO.

The main changes:

- has a tape stop!
- is available in
- 2 m and 3 m

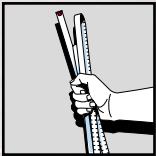

This measuring tool fascinates and his benefits are unbeatable.

Fascination:

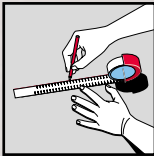

Due to a special treatment of the refined steel the tape unrolls on its own!

Benefits:

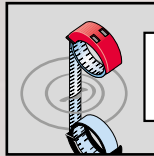

- stainless refined steel tape, white-enamelled
- totally waterproof
- unbreakable, durable
- accurate according to EC class II (+/- 0,9mm/2m - a wooden ruler is 2,2mm/2m)
- compact, light and handy
- perfect for use as a ruler
- tape lies flatly on a table, allowing precise markings and easy transfer of measurements
- world first!
- Made in Germany!

unbreakable

perfect to use as a ruler

waterproof, rustproof

nichts!

Frame measuring tape BASIC I + II

The plastic frame BASIC combines patented properties to the best quality: slip ring bearings of the crank mechanism, a crank handle that can be switched for left/right handers, parking positions for crank handle and commencement ring, and an ergonomic handle. The side components consist of an extremely impact-resistant plastic and are welded by means of ultrasound. In addition, the BASIC can be supplied with tapes featuring the patented FLEXTOP tape stop that reliably prevents damage to the end of the tape!

Length: 10 m + 20 m
(other lengths on request)

MADE IN GERMANY

Frame measuring tape BASIC III + IV

Screwed construction, made of high-impact resistant polypropylene. Slip ring bearings of the crank mechanism, a crank handle that can be switched for left/right handers, parking positions for crank handle and commencement ring, and an ergonomic handle.

Length: 30 m + 50 m (other lengths on request)

Width: 13 mm

Information on the BMI pocket tape measures

Pocket tapes manufactured by BMI are versatile with regard to their use as their users' demands are diverse. Longitudinal, internal measuring, radii, mm/mm graduation mm/inch graduation, individual case designs and much more. There is almost no limit to your imagination. Owing to the fact that these pocket tapes are manufactured in our own works there are many design options, even for small quantities. Our main focus is of course on precise measuring, perfect handling and long working life.

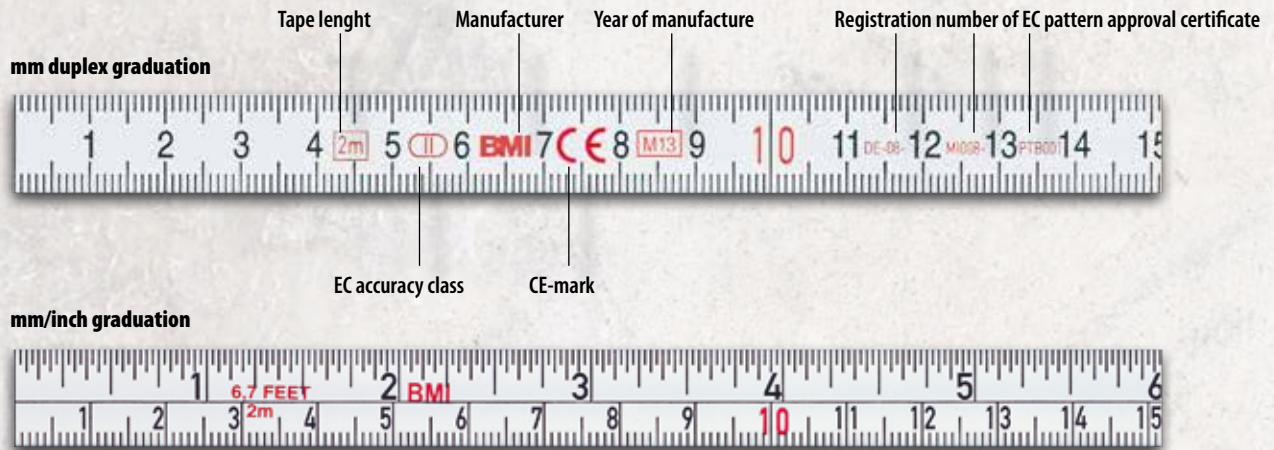

Advantages

- Durability in rough work environment through rust prevention of the tapes (phosphate ground coating)
- BMI pocket tapes have a transparent coating as wearing prevention, 10 times stronger than any other non-abrasive coatings!
- Long working life of the return lock spring owing to a special spring band steel
- Sophisticated interior: inserted winding coils or distance washers ensure perfectly smooth running
- Robust high-impact ABS or polyamide case
- Tapes with mm-graduation EEC pattern approved, suitable for calibration
- Accuracy acc. to EEC class II
 - 2 m \pm 0,7 mm
 - 3 m \pm 0,9 mm
 - 5 m \pm 1,3 mm
 - 8 m \pm 1,9 mm

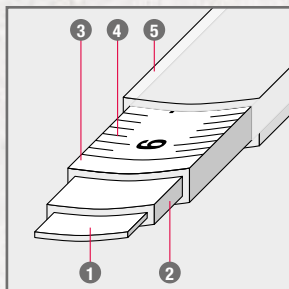

Nothing can scratch me!

You will recognize high-quality measuring tapes by these imprints:

Tape structure

- 1 Concave, tempered spring blade steel of high stability
- 2 Anticorrosive phosphate coating
- 3 Synthetic resin, stoved
- 4 Printed graduation with red meter figures
- 5 Clear varnish to protect against wear, stoved

End fittings

Metal sliding tip, nickel-plated, adjustable for both end-on and hook-on measurements.

Internal measuring

With the IN-OUT, VISO, X 4, TOP and TOP-M models the internal measurement can conveniently be read directly from the top sight window. For other models the case length is to be added.

VARIO

Elegant and ergonomically shaped high-impact ABS plastic case. A special mechanism ensures **smooth running** of the blade. Lock lever operates automatic blade return. VARIO 5 m with carrying strap.

Length: 2 m, 3 m, 5 m
2, 3 + 5 m with mm- or mm-/inch-graduations.

Width:
2 m + 3 m → 13 mm
5 m → 16 mm

Case dimensions:
2 + 3 m → 60 x 58 x 19 mm
5 m → 75 x 70 x 26 mm

Of course, the tape has the usual **LONG LIFE** properties and the user is guaranteed over the years are more than happy.

Order-no.:
2 m → 02002
3 m → 02003
5 m → 02005

MADE IN GERMANY

at 100 pcs. or more:
Standard colours, Black,
White or Red!

X 4

The most versatile tape with 4 functions:

- Longitudinal measuring
- Internal measuring
- Circles
- Level

Scale in the window is not displayed upside down (**no reading errors possible**).

Blade lock. Polyamide case.

Free-running blade in push-pull design.

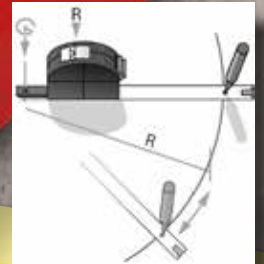

Length:

3 m with mm- or mm-/inch-graduations

Blade width: 13 mm

Case dimensions: 60 x 80 x 20 mm

Order-no.: 01933

The steel stylus integrated in the swing-out arm allows 3 m radii to be drawn.

IN-OUT

Pocket tape with **top sight window** for internal measuring. Scale in the window is not displayed upside down (**no reading errors possible**).

Blade lock. Polyamide case. Free-running blade in push-pull execution.

Lengths: 2 + 3 m with mm- or mm-/inch-graduations

Blade width: 13 mm

Case dimensions: 60 x 60 x 21 mm

Order-no.:

2 m → 01592

3 m → 01593

VISO

The special measuring tape with 3 functions:

- Longitudinal measuring
- Internal measuring
- Circles

Scale in the window is not displayed upside down (no reading errors possible).

Blade lock. Polyamide case.

Free-running blade in push-pull execution.

Length: 3 m with mm- or mm-/inch-graduations

Blade width: 16 mm

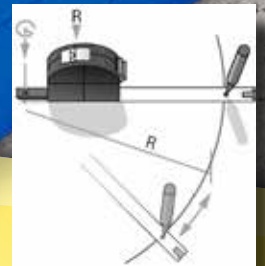

Case dimensions: 65 x 65 x 25 mm

Order-no.: 02093

MADE IN GERMANY

at 100 pcs. or more:
Standard colours, Black,
White or Red!

The steel stylus integrated in the swing-out arm allows drawing of radii up to 3m.

TOP

Internal measuring tape without lock.

Top sight window with magnifying effect.

Scale in the window is not displayed upside down (no reading errors possible). Polyamide case.

Freerunning blade in push-pull execution.

Lengths: 2 + 3 m with mm- or mm-/inch-graduations

Blade width: 13 mm

Case dimensions: 65 x 65 x 21 mm

Order-no.:

2 m → 01392

3 m → 01393

MADE IN GERMANY

twoComp

Pocket tape with **robust tape operating mechanism**. High-impact ABS plastic case with additional soft-grip-surface. Automatic blade return. Blade lock. **Belt clip**.

Length: 3, 5 und 8 m with mm-graduations
Width: **Case dimensions:**
 3 m → 16 mm 3 m → 60x60x32 mm
 5 m → 19 mm 5 m → 70x70x36 mm
 8 m → 25 mm 8 m → 80x80x45 mm
 (only red/black-design)

CHROM 474

Robust pocket measuring tape. Chromed case, impact-resistant ABS plastic.

Case:
 ABS plastic with chrome finish

Technical characteristics:
 Automatic tape return with a tape lock and belt clip.

Width: **Case dimensions:**
 3 m → 13 mm 3 m → 65 x 60 x 27 mm

Printing information

Prices for imprint are net.

Folding rules:

One colour imprint on two sides included. All other products include one colour on one side. For any additional colour and printstand Euro 0,08.

Partial cliché costs:

Euro 37,- for each colour and motive (do not apply for repeat orders within 5 years). Clichés remain property of BMI. We charge Euro 20,- for the returning of the films.

Packing:

On request.

Delivery:

Ex works packing excluded; if order volume exceeds Euro 256,- free German border packing included.

Payment terms:

10 days 2 % discount or 30 days net from date of the invoice.

Logo imprints:

In any colour of customers' choice (HKS- or RAL-colour).

Preproduction samples on request:

We can provide a preproduction sample on request, in standard design, at 34,-EUR per colour, plus value of product.

Printing Data:

Please provide print designs electronically, preferably in eps. or pdf. format.

Please provide print designs electronically, preferably in corel Draw, Freehand .eps or .pdf format.

Generally:

The bigger the size of the artwork and the more detailed the better!

Freehand data up to version MX and Corel Draw data up to version X3 can be processed instantly.

However, generally all electronic data (PC or Mac) or artwork on paper (such as letter head, business cards smooth paper, catalogue) can be processed. Then, however, some days have to be added to the preparation period.

Please send your order and data to our new account for customers in advertisement:

auftrag@bmi.de

Before we start processing your order we will send you proof sheets and ask for written approval.

Our general terms and conditions are valid.

Individual solutions

Common is not enough!

The standard products are too ordinary for you? You would like to change details in order to make your customers' work really easier?

No problem!

If you need an illuminated vial, special drill holes, a special graduation, integrated pencil holders ... we will work out an individual solution for your customer!
